Ref: Certificate of Internship Training/0237/Intern on Machine Learning

TO WHOM SO EVER IT MAY CONCERN

This is to certify that Mr. Kethavath Sundar is currently undertaking internship training with us from 1st January 2024 and is supposed to finish by 31st May 2024

Sundar approached us for specialised training in field of ML with us.

We are happy with his progress and he is very disciplined, diligent and enthusiastic with his projects. During Internship he worked on an instance segmentation pipeline for image segmentation and processing. He applied the Mask-RCNN model to the "Dense Cell Organelle EM dataset". In addition, he worked on the Segment Anything Model (SAM) and LIME (Local Interpretable Model-Agnostic Explanations), as well as the model's entire workflow.
